Proponent(s): Edwin "Thorpe" Romero, Jeff L. Grubbe, Anthony Roberts, Mark Macarro

Summary: Allows federally recognized Native American tribes to operate roulette, dice games, and sports wagering on tribal lands, subject to compacts negotiated by the Governor and ratified by the Legislature. Beginning in 2022, allows on-site sports wagering at only privately operated horse-racing tracks in four specified counties for persons 21 years or older. Imposes 10% tax on sports-wagering profits at horse-racing tracks; directs portion of revenues to enforcement and problem-gambling programs. Prohibits marketing of sports wagering to persons under 21. Authorizes private lawsuits to enforce other gambling laws. Summary of estimate by Legislative Analyst and Director of Finance of fiscal impact on state and local governments: Increased state revenues, potentially reaching the tens of millions of dollars annually, from payments made by facilities offering sports wagering and new civil penalties authorized by this measure. Some portion of these revenues would reflect a shift from other existing state and local revenues. Increased state regulatory costs, potentially reaching the low tens of millions of dollars annually. Some or all of these costs would be offset by the increased revenue or reimbursements to the state. Increased state enforcement costs, not likely to exceed several million dollars annually, related to a new civil enforcement tool for enforcing certain gaming laws. ([19-0029A1](#).)

Summary: Legalizes online and mobile sports wagering, which currently is prohibited, for persons 21 years and older. Such wagering may be offered only by federally recognized Indian tribes and eligible businesses that contract with them. Individuals placing bets must be in California and not located on Indian lands. Imposes 10% tax on sports-wagering revenues and licensing fees. Directs tax and licensing revenues first to regulatory costs, then remainder to: 85% to homelessness programs; 15% to nonparticipating tribes. Specifies licensing, regulatory, consumer-protection, and betting-integrity standards for sports wagering. Summary of estimate by Legislative Analyst and Director of Finance of fiscal impact on state and local governments: Increased state revenues, potentially reaching the mid-hundreds of millions of dollars annually,

from online sports wagering-related taxes, licensing fees, and penalties. Some portion of these revenues would reflect a shift from other existing state and local revenues. Increased state regulatory costs, potentially reaching the mid-tens of millions of dollars annually, that would be fully or partially offset by the increased revenues. ([21-0017A1](#).)

Sports wagering limited to persons 21 and older. *Directs 15% of sports-wagering profits to nonparticipating tribes and 10% first to regulatory costs and then to homelessness/mental-health programs.* Summary of estimate by Legislative Analyst and Director of Finance of fiscal impact on state and local governments: Increased state revenues that could range from the tens of millions of dollars to the mid-hundreds of millions of dollars annually, depending on how the measure is implemented and legally interpreted. Some portion of these revenues would reflect a shift from other existing state and local revenues. Increased state regulatory costs, potentially in the low- to mid-tens of millions of dollars annually. Imposes 15% tax and other fees on sports-wagering revenues; directs revenues first to enforcement and problem-gambling programs, and any remaining funds to public education, homelessness, affordable housing, and mental health programs. Prohibits marketing of sports wagering to persons under 21. Summary of estimate by Legislative Analyst and Director of Finance of fiscal impact on state

and local governments: Increased state revenues, potentially reaching the mid-hundreds of millions of dollars annually, from sports wagering taxes and payments (such as licensing fees). Some portion of these revenues would reflect a shift from other existing state and local revenues. Increased state regulatory costs, potentially reaching the high tens of millions of dollars annually, that would be fully or partially offset by the increased revenue or payments required by gaming agreements between tribes and the state.
